Fall 2018 iSNUCE Orientation

iSNUCE Orientation (Sept. 3)

## About iSNUCE

iSNUCE is a COE (College of Education) organization designed to welcome and support international students. In addition to orientation, iSNUCE will sponsor a variety of activities throughout the semester so you can meet with other international students and faculty members, and enjoy your time in Korea. Our main goal is to help students feel at home on campus, become familiar with the academic and co-curricular opportunities, learn about campus traditions, understand how to access campus resources and support services, meet the COE community, and begin to explore surrounding neighborhoods in Seoul.

## Future Events

The welcoming remarks from the Associate Dean Byeong-gon Min and Professor Junhua Yu marked the start of the orientation. We then had a chance to get to know one another better and to learn about iSNUCE through a quick game and round table discussion with the new students and the staff members of iSNUCE. A special lecture on crime prevention by Officer Seok-joon Lee from the Kwanak-gu Police Station also took place. Afterwards we enjoyed lunch together and attended a campus and library tour. We hope you enjoy your new life in the COE at SNU! We look forward to seeing you at the upcoming November Lantern Festival outing! iSNUCE will host a variety of events during the fall semester that you are more than welcome to attend! Join us to make new friends and wonderful memories together!☺
