## Lantern Festival

iSNUCE took a field trip on November 6 2019 to attend the Lantern Festival at Cheonggyecheon and enjoy the night view of Seoul by visiting the Seoul SkyGarden (서울로 7017) near Seoul Station. The night view of the SkyGarden and the historic train station offered students a unique view of the city.

Next, Professor Sonya MARTIN, Professor Junhua YU and five international students of CoE walked along the Cheonggyecheon stream and took pictures of beautiful lanterns with different designs and colors.

This year, there were many beautiful lanterns depicting the theme of “Fairytale from around the World”. For example, a tiger shaped lantern was decorated with traditional Korean paper had an avant-garde feature that made everyone surprised by its size and delicacy. Students learned a traditional Korean fable after viewing the lantern depicting two kids escaping from a tiger.

## **Lantern Festival (2)**

Despite the cold weather, many couples, friends and families made unforgettable memories with each other walking along the brightly lit stream in the middle of the city. On this trip, every iSNUCE member saw not only beautiful lanterns, but also had a chance to learn about Korean culture and history.

After embracing night views of Seoul, iSNUCE members had delicious traditional Korean foods, such as bibimbap, dumplings, and steamed pork. While eating gourmet foods, we shared our feelings about the lantern festival and our enjoyment to discover Seoul.
